## Coldest Wave of Season Hits All Arkansas

LITTLE ROCK (AP) — The coldest weather of the season gripped Arkansas today, with temperatures dipping as low as eight degrees in the northwest.

The low readings were at Fayetteville and G. Hart.

More frigid temperatures were forecast for today and tonight, with overnight lows of 10 to 15 degrees in the north and 15 to 20 in the south expected.

But there's hope of slightly warmer weather tomorrow afternoon.

Other lows this morning included 10 at Flippin, 11 at Batesville, 13 at Fort Smith, 15 at Little Rock, 16 at Pine Bluff, 18 at Texarkana and 19 at El Dorado.

There's expectation of a white Christmas in Arkansas, but there were traces of snow yesterday at Beaver, Fayetteville and Flippin.

By United Press

A cold wave accompanied by snow squalls and rain marched into East today, and weather forecasters said there was a good chance for a white Christmas in many areas between the Rockies and the Appalachians.

Meanwhile, as the leading edge of the cold front advanced as far as Western New York, state meteorologists took a nosedive in the Midwest.

Snow storms kicked up by the cold wave yesterday left highways in or snow-clogged in widespread areas from the Dakotas to Kansas to Chicago.

Even at Presidio, Tex., often the hottest city in the country with 110 degree heat spells, an inch of snow covered the ground.

## Laniel Quits as Candidate for President

VERSAILLES, France, (AP) — Overseas Minister Louis Jacquinot, replaced Premier Joseph Laniel to day as the independent party's candidate for the French presidency.

Socialist Marcel Edmond Naegelen remained the other leading candidate as the divided Parliament began its 11th ballot in a week of fruitless voting.

Laniel, who came with 22 votes of victory Sunday night and topped the poll on the last 8 of the 10 ballots, withdrew late last night after it became apparent he could not pick up support from middle-of-the-road factions.

He urged non-Communist groups to agree on another national leader to succeed outgoing President Vincent Auriol.

Before the four-hour voting began today, his Independent party caucused and chose Jacquinot, a 55-year-old political veteran of many French cabinets including Gen. Charles de Gaulle's wartime government-in-exile.

## Gallows Built for Play Takes Life

GRASS VALLEY, Calif. (AP) — A gallows he had built for a stage play took the life of Richard B. Looser yesterday.

Looser, 34, was director of an amateur theater group.

Deputy Coroner Shirley Bratton who called the death an accident, said this is what must have happened:

Looser constructed the gallows set and placed a large mirror to reflect the scene so he could make sketches and designs for costumes. He arranged a break-away slip knot in the rope as a precaution against accident.

This morning, with the noose about his neck, and his sketchbook nearby, he stepped from the box on which he had been standing. The trick knot failed. Looser strangled, his toes dangling just above the floor.

Bratton said that when police lifted the body the slip knot fell apart easily. He said the roughness of the new rope apparently prevented the knot from functioning as Looser had planned.

## May Extend Pink Worm Regulations

WASHINGTON (AP) — The possibility of extending federal pink bollworm quarantine regulations into Arkansas will be discussed at Memphis, Tenn., on Jan. 14.

The Agriculture Department, which announced the hearing yesterday, said it will consider extending the regulations to Columbia, Howard, Lafayette, Little River, Nevada, Hempstead, Miller and Sevier counties.

Infestations of the cotton pest have been discovered in Hempstead and Miller counties and the department said the other areas might be quarantined because of movement of cotton seed from infested sections to adjoining counties.

The regulations restrict movement of cotton and cotton by-products from infested areas.

The area already is under a state quarantine.

## Traffic Accidents Bring Death to 3

By The Associated Press

Three persons were killed in traffic accidents, one died from burns and three others were presumed dead in a boating accident yesterday in the first fatalities recorded during Christmas week.

Three Chicago County men—John Bunker, about 40, Freddie Black and Will Sheffield, all of near Lake Village, are believed to have drowned when their boat capsized in Paradise Lake.

A witness, Orvel McEachern, saw the boat overturn and rowed to Lake Village to report the accident when a four-hour search failed to uncover a trace of the men.

Sheriff Lee Hamilton said C. A. Calhoun, 28, and Thomas Petty, 22, both of Des Arc, were killed when their cars and a truck collided near Des Arc.

Joe Johnson, 47-year-old Hickory Plains postmaster, and his wife—occupants of the truck—were injured critically.

## Family Indicted on Robbery Charge

BOSTON (AP) — Three members of a family were under indictment today in connection with the fabulous \$881,700 cash robbery from a parked armored truck 21 months ago.

A federal grand jury late yesterday indicted George D. O'Brien, 43, an ex-convict on charges of actual participation in the daring daylight theft.

His wife, Margaret, 42, and their son, George D. Jr., 19, a Massachusetts Institute of Technology engineering student, were indicted on charges of receiving stolen money from the older O'Brien.

U. S. Atty. Anthony Julian said "at least three men" cleaned out the armored car of everything but \$70,000 in silver while it was parked on a busy square in Danvers, about 20 miles north of Boston.

The truck's three guards were having a forenoon cup of coffee in a nearby drug store at the time.

In colonial times 85 per cent of the U. S. population lived and worked on farms.

## Elusive Prison Escapees Are Recaptured

RICHMOND, Md. (UP) — Two elusive Southern Michigan prison escapees were arrested today despite a last-minute attempt by one to grab a gun while police were watching him.

Their capture, in a hotel about dawn, resulted from a routine investigation of a car they stole in Detroit, Mich.

The fugitives, Roman Ustondok, 37, convicted of killing a tavern owner during a 1942 holdup, and Robert Dowling, 27, serving life term for armed robbery and kidnapping, were jailed pending arrival of Michigan authorities.

Dowling and Richmond Police Capt. John Rizio struggled briefly in the Mack Hotel room when Dowling grabbed a German pistol loaded with one bullet from beneath a hat on the pretense he was reaching for identification papers.

But Rizio jumped forward and twisted Dowling's wrist, forcing him to drop the gun. Ustondok was being watched by Policemen Elwood Clark and Harold Ryan and offered no resistance.

Police said the fugitives, who were among 13 convicts who broke out of prison at Jackson, Mich., last Saturday night, apparently drove into Richmond shortly after midnight. The other 11 convicts previously were arrested and these two had become the object of an intensive police search in the Detroit area.

## Military Pay Hikes Dimmed by Short

WASHINGTON (UP) — Chairman Dewey Short of the House Armed Services committee today ruled out an early pay raise for the military but held out hope Congress will take other steps to make service careers more attractive.

The Missouri Republican said a defense department survey commission, which recently recommended a cost-of-living pay boost for servicemen, made a good case. But he said the climate in Congress in the new year will not be favorable for passage of a pay raise bill.

"I'm most sympathetic" he told a reporter. "But I would not want to create any false hope."

Short disclosed he has put on his committee's agenda, however, consideration of other steps recommended by the defense department study group for improving morale and attracting more good men to military careers.

These include such things as restoration of curtailed "fringe" benefits like the most exchange and commissary privilege; an increase in the amount of household goods that can be shipped at government expense; and better housing.

As the committee's first business in January Short scheduled an administration bill to let the Air Force build its own service academy, comparable to the Army's at West Point, N.Y., and the Navy's at Annapolis, Md. The new academy is estimated to cost \$150,000,000 to \$200,000,000 Short said.

"I'm going to use any unfair pressure as to where it is located," Short said. "But the two present academies are on the East Coast and I think it should go somewhere in the Midwest. I think Sedalia, Mo., would be a good place."

Also high on the committee's work list he put a new authorization for military construction work including bases for the new guided missile, the Nike, with which the Army plans to defend some 35 big cities against air attack.

## Chicken Market Fairly Steady

LITTLE ROCK, (AP) — A steady market yesterday indicated that the slump in chicken prices on Arkansas markets has run its course, even though top quality chicks took another one cent a pound loss in the northwest.

The price on the northwest market was 22 cents a pound, compared with Monday's price of 23 cents for better poultry.

The market, however, was steady, with fair demand, moderate trading and adequate supplies.

There weren't enough sales to establish a market yesterday at the Batesville-Floral market.

The price drop started Dec. 11. Cause of the break has been attributed to competition from eastern markets; lack of consumer demand; and a seasonal increase in turkey sales.

## Agricultural Dept. Reports No Evidence of Profiteering by Beef, Cattle Processors

By OVID A. MARTIN

WASHINGTON, (AP) — The Agriculture Department reported today it has found no evidence of widespread, above-normal profit making by beef and cattle processors and distributors in the past two years.

The report culminated an investigation started in September at the direction of Secretary of Agriculture Benson. He said there had been consumer and producer complaints that beef prices had declined in proportion to sharp drops in beef cattle prices in 1952-53.

But the report, prepared by the department's Bureau of Agricultural Economics, which made the study, declared:

"It appears that retail prices of beef have generally reflected the declining prices for live cattle in 1952 and 1953."

"There were scattered examples of very depressed prices on some of the lower grade cattle sold in the local livestock markets. There were also a few cases of extremely wide margins on lower grade meat sold in retail stores. But this was not the usual situation. In general, the margins picture appeared to be fairly stable."

Marketing margins were defined as returns for marketing services performed, such as labor, rent, supplies and equipment, as well as management and profits.

The bureau said it appears that falling prices for cattle, especially for the lower grades, were caused by an increase in slaughter as beef cattle population soared to new peaks. It said the heavy slaughter was aggravated to some extent by distress sales from drought areas.

## Real Recession in Progress Senator Says

WASHINGTON (AP) — Sen. Douglas (D-Ill.) declared today this country is in a "real recession" which might contain the seeds of a full scale depression.

Avoiding any prediction that a depression will materialize, Douglas urged the Eisenhower administration to prepare a standby program which could be used instantly if "the cumulative forces of economic breakdown" continue.

Douglas, a former University of Chicago economics professor, said in an interview that such an anti-depression program should embrace as a minimum:

1. A further decrease of "consumption taxes," such as excise levies, to lower prices and thus stimulate buying.

2. An increase in personal exemptions for income tax purposes, a step which Douglas said would increase spending faster than any across-the-board income tax cut.

3. A public works program, with emphasis on slum clearance, public housing, highway construction, and school and hospital construction.

Douglas took pains to emphasize he was not forecasting a depression.

## Sebastian County Judge Dies

FORT SMITH, (AP) — R. P. Strozler, who retired last December after 20 consecutive years as Sebastian County judge, died at his ranch near Hartford yesterday. He was 73.

Usually when the weatherman makes a prediction its fails to materialize by several degrees but he hit it right on the head yesterday . . . he said it would be 10 last night and that's exactly what it was . . . the mercury never got higher than 50 degrees all day yesterday but piercing winds made it seem even colder . . . business downtown seemed slow but if you walked in a store it usually was very busy . . . the shoppers simply weren't staying out in that wind very long at a time . . . the young salesmen selling fire crackers in alleys and doorways braved the cold all day and were back out this morning . . . I just don't see how they stand it.

Its fairly official now that Texarkana's TV station will join the cable at 4 p. m. December 31, offering live shows to viewers of the area . . . for sports fans the station will carry the Oklahoma-Maryland game on January 1 and the professional game on December 27, although I'm not too sure about the latter . . . the Star probably will carry the station's program schedule after the first of the year . . . the only reason it was stopped before was because the actual program shown varied too much from the one announced . . . perhaps now it will settle down and be as announced.

Congratulations to Louis Graves, Nashville News publisher . . . Graves are the parents of six sons and a baby daughter arrived Thursday, December 17.

After Christmas the Bobcats will enter the Henderson tournament at Arkadelphia, January 6-9, and Coach Byron Thompson is hopeful of making it two straight . . . Hope captured the Nashville tournament last week with ease . . . Following a loss to Texarkana in opening the season the Bobcats have come along without another defeat and are beginning to realize the local five has possibilities . . . the all land range the Bobcats are sprinkled with experience and should improve steadily . . . in their loss, that by only a few points, the Bobcats were playing without the service of Garrie Hatch who has averaged around 30 points per game . . . say around February fans will have a fair idea of how far the team might go.

## Bulletin

VIAN, Okla., (AP) — Two young gunmen robbed the Vian state bank of about \$2,000 this morning and made a clean getaway after forcing bank employees and one customer to lie on the floor.

727 State, county and federal officers immediately started a hunt for the pair reported speeding eastward toward the Arkansas border in a blue late model automobile.

Vice President Sinclair W. Armstrong of the small town bank in eastern Oklahoma said the pair, armed with a machinegun and a pistol, walked into the bank about 9:20 a.m.

WASHINGTON, (UP) — The government reported today the cost of living declined slightly in November for the first time in eight months.

A 1.4 per cent drop in food prices was chiefly responsible for the decline.

The decline meant that 1,100,000 railroad workers lost out on a one-cent-an-hour wage increase under their contracts which are tied to the cost of living index.

NEW YORK, (UP) — Three Longshoremen were stabbed today in a second outbreak of violence at the Brooklyn polling place where rival unions battled for control of waterfront workers.

MARINETTE, Wis., (AP) — A fire took the lives of five children early today when the home of the Robert Deganyer family burned to the ground.

The children were sleeping in bedrooms on the second floor of the house when the fire started at about 6 a.m. The father, Robert, left the house to call the fire department.

When he returned the fire spread too rapidly for him to enter the house, and save his children.

A woman watching the fire said she saw the father try and enter the house by clinging to the roof and entering through a window, but heavy smoke and flames forced him back.

## Mother Hears From Missing Diplomat

LONDON (UP) — A "Merry Christmas" letter from missing British diplomat Guy Burgess, who disappeared with his fellow foreign official Donald D. MacLean in 1951, has been delivered to his mother here, it was announced today.

The letter was mailed in southeast London Monday. It was dated simply "November" by Burgess; it was delivered — with a batch of Christmas mail — last night at the mother's home in the fashionable west end.

There was no clue to the point of origin of the letter, and the mystery of Burgess and MacLean — the biggest of the cold war — was even deepened.

Burgess was a foreign office expert on Communist doctrine and the Far East. MacLean was head of the American Department. On the night of May 25, 1951, they left MacLean's country home for "a day in London." They boarded a channel steamer instead, landed at St. Malo, France and disappeared.

## U. S. to Send Russia a New 'Welcome' Note

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The United States probably will send Russia a new note soon welcoming its renewed agreement to atomic talks, and suggesting ways to get them started.

Top officials, who are still going over Moscow's Monday message to decide precisely how this country should proceed, said some authorities believe an exchange through normal diplomatic channels will be undertaken.

However, such planning is going forward in the State Department and Atomic Energy Commission (AEC) on the assumption that secret talks among the world atomic power will open up under the sponsorship of the United Nations Disarmament Commission in late January — about a month away.

A preliminary exchange of views which could be carried on by ambassadors, or perhaps by Secretary of State Dulles and Foreign Minister Molotov at the projected Berlin conference, might serve to clear the air of misunderstanding, if any exist, officials said.

WASHINGTON (UP) — Retired Brig. Gen. Telford Taylor said today that Sen. Joseph R. McCarthy's Port Monmouth investigation was a "fiasco" that produced no evidence of espionage but damaged military "efficiency and morale."

McCarthy's methods of conducting the hearings, he said, "have been on far below the recognized standards of congressional investigation committees that his action are undermining respect for law."

Taylor, former U. S. war crimes prosecutor in Germany and now a New York attorney, lashed out at the Wisconsin Republican in an interview with Newsweek magazine.

He said he believes strongly in congressional investigations but asserted that "abuses and excesses" like those indulged in by McCarthy tend to degrade the process.

For that reason, he proposed creation of a new joint congressional committee on internal security, similar to the present joint committee on atomic emergency, which suggested that it operate according to a simple code of fair practices.

Taylor also endorsed the administration's proposal to grant immunity from prosecution in certain limited cases to compel testimony on such vital subjects as espionage when this might otherwise be barred by a witness using the fifth amendment to avoid self-incrimination.

## Studio Worries Over Kelly's 'Art' Film

HOLLYWOOD — Gene Kelly  
Punches his gift to the dance, is  
fashioning up a picture with all  
dancing and no dialogue and scoffs  
at the idea that it's strictly for  
entertainers.

Kelly is a whirlwind creator. He  
has been setting and dancing on  
the dance floor "Brigadoon" which  
Vivienne Minelli is directing. He  
is working with the MGM car-  
toon department to finish up "Star-  
line the Sailor," the last sequence  
to his talkless movie, "Invitation  
to a Dance."

The gossip has pointed that  
MGM was concerned about "Invita-  
tion," fearing that it might have  
a limited audience. Gene spoke  
back reports.

"Some people say the picture  
will appeal only to ballet lovers,"  
he remarked. "I say that's a lot  
of nonsense. I think it will have  
great popular appeal. Anybody who  
likes to see dancing should go to  
it."

"I think it has a better chance  
of making money than the general  
run of pictures out of Holly-  
wood. Most of them are pretty  
bored awful."

"I've always held that you  
shouldn't underestimate the intelli-  
gence of the movie audience.  
That's where Hollywood has made  
a mistake. I remember how every-  
body thought we were nuts to put  
that big ballet number in "An  
American in Paris."

"An American in Paris" was one  
of the most successful musicals  
every made and won the Acad-  
emy's best picture award for 1951.  
The achievement whetted Gene's  
appetite for even more ambitious  
things. He proposed a full-length  
dance picture—nothing else, just  
dancing.

Much to his surprise the studio  
said, "Sure—go ahead."

"Then I started getting cold  
feet," he admitted. "I began to  
think what would happen if it  
really flopped."

So he settled for a movie of  
three different sequences. One of  
them is stark drama and caused  
a run-in with the censors.

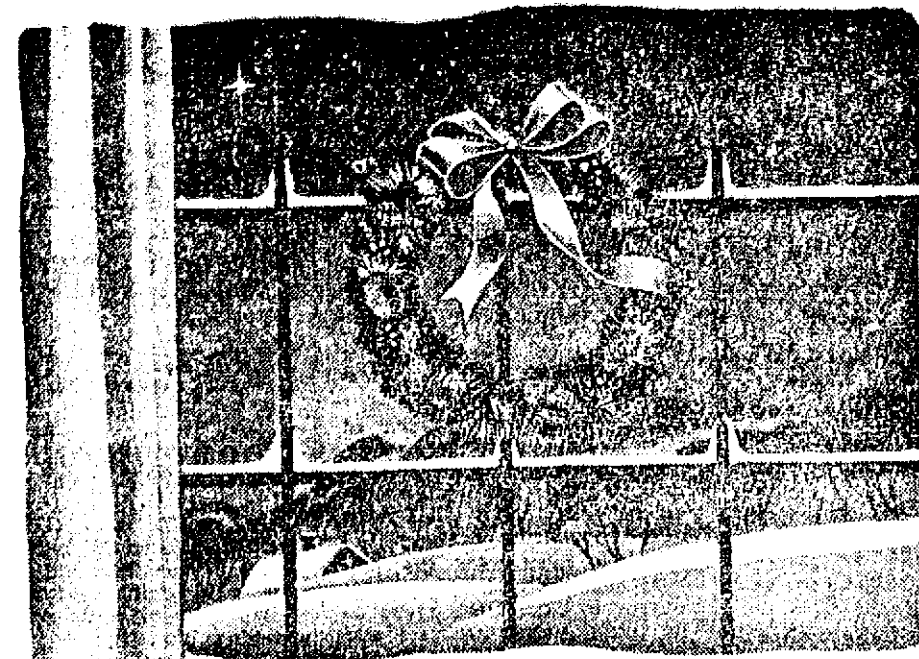

"It's quite a strong bill of  
goods," he explained. "In one of  
the scenes I'm walking down the  
street and a prostitute comes up  
to me. The censors got real up  
in arms over it. That's something  
I can't understand."

## Jap Warlord Tells U. S. to Leave Japan

Editors Note—Vic Suzuki of the Associated Press Tokyo bureau obtained the following exclusive interview with Masanobu Tsuji, one of Japan's top military brains and an outspoken critic of U. S. policy in Japan. Tsuji, who is not considered basically anti-American, speaks for the nationalists. A member of Parliament, he has organized following but is a national hero.

By VIC SUZUKI  
TOKYO, (AP)—Masanobu Tsuji, one of Japan's most brilliant military strategists in World War II, today warned the United States to pull its troops out of Japan as soon as possible or "the day will come when she will regret it."

He also warned "a strong anti-American feeling prevails and is increasing in this country."

"This is a pity," he said, "and it should be curtailed."

Tsuji devised the strategy behind Japan's lightning invasion of Malaya and the capture of Singapore in late 1941 and 1942.

He was listed as a war criminal by the Allied command, but was never captured. He has become a national hero and a living legend since the end of the occupation.

He speaks for the nationalists and has sharply criticized occupation policies, although he is not considered basically anti-American.

An influential member of Japan's lower house, he said today he has sent a letter to Vice President Richard M. Nixon warning against American policy toward Japan.

He said the United States should:

1. Withdraw her troops from Japan and not compel this country to disarm.

2. Admit the war crimes trials were a mistake.

3. Say what it expects to gain by mutual security administration aid to Japan.

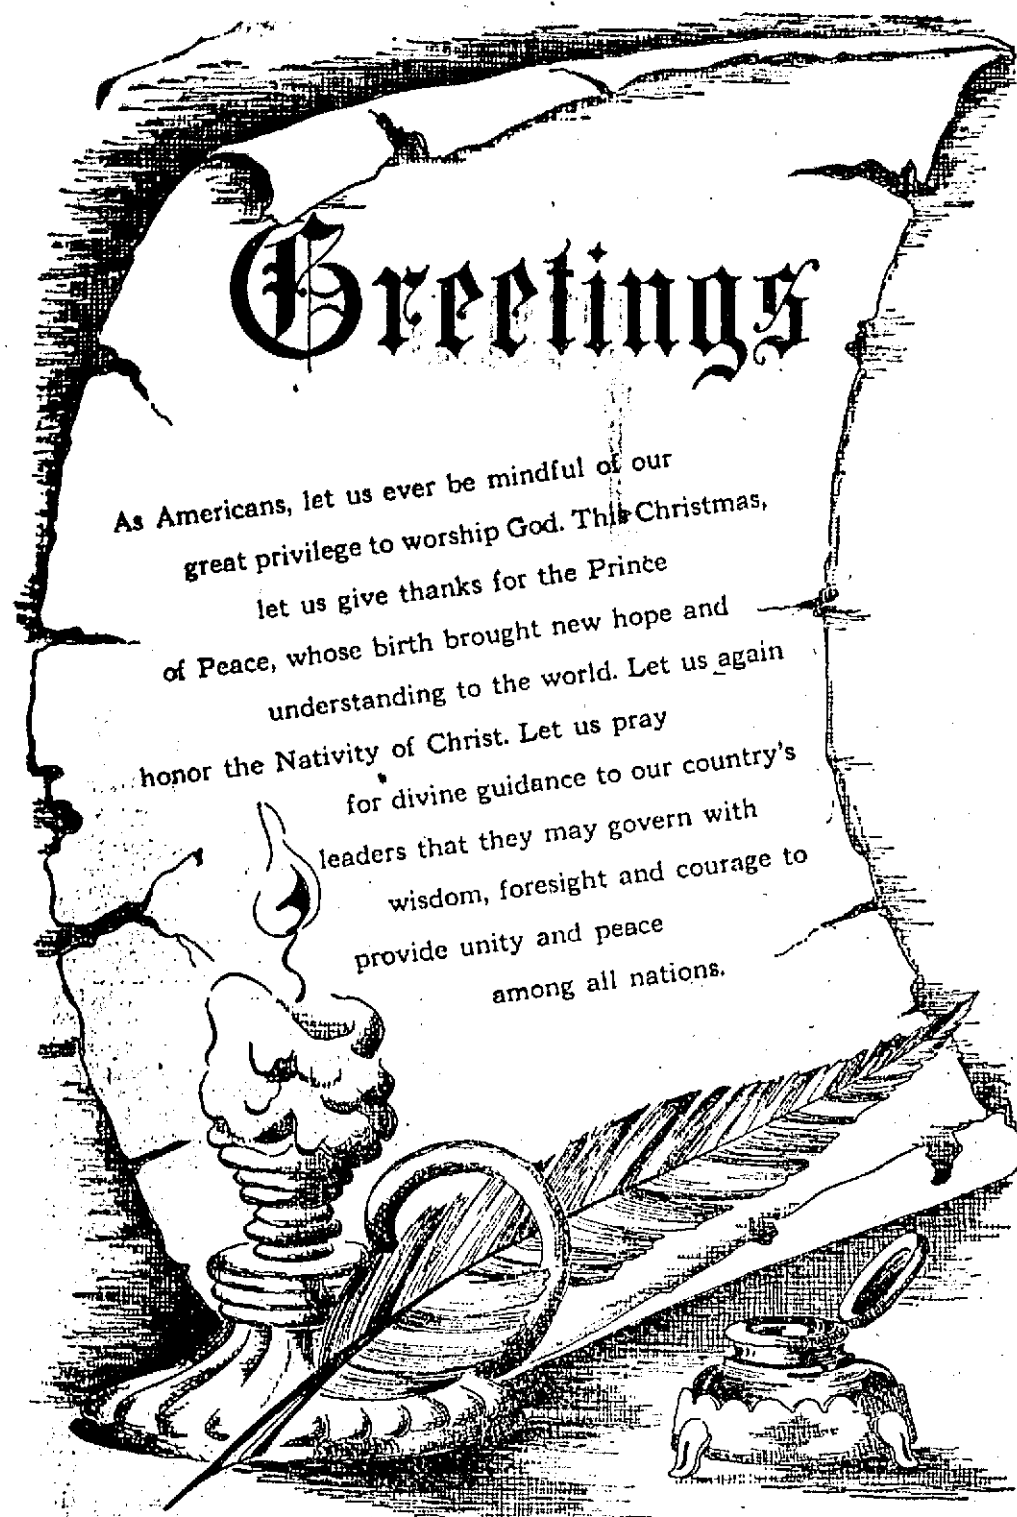

4. Reconsider and revise its policy toward Asian countries.

"If the United States withdraws her troops from Japan this country will at once buckle down to prepare for any aggressive acts by the Communists," Tsuji said.

"The keeping of foreign troops in the country is, in fact, hindering the rebuilding of our defense forces."

He pointed out that America wants a Japanese army of 325,000 men whereas Japan had only 240,000 men under arms at the time of the Manchurian incident in 1932.

"If Japan could wage an aggressive war with 230,000 men, why does she need 325,000 men to defend the islands?" he asked.

## Greetings

As Americans, let us ever be mindful of our great privilege to worship God. This Christmas, let us give thanks for the Prince of Peace, whose birth brought new hope and understanding to the world. Let us again honor the Nativity of Christ. Let us pray for divine guidance to our country's leaders that they may govern with wisdom, foresight and courage to provide unity and peace among all nations.

## Eight Killed in Ohio River Dock Blast

POINT PLEASANT, W. Va. (AP) — A big gasoline barge blew up at an Ohio River dock here today and eight men apparently were killed.

State police reported three hours later that three bodies had been recovered, two still were inside the barge and three workmen were missing.

The 200 foot steel river tanker owned by the Union Barge Line, was being cleaned at the dock of the Marietta Manufacturing Co. at the time of the blast.

It tore a hole 30 feet long and 10 feet wide in the barge. A heavy steel sheet from the hole went 250 ft through the air and hit the boom of a big crane in a shipyard high on the river bank. It then dropped on a cement mixing truck. No one was hurt in the shipyard.

Some of the 20 men at work building a new barge nearby were jolted from scaffolding. A few had scratches and bruises but there were no serious injuries.

The only victim immediately identified was Harry Tade Bone crusher of Point Pleasant, whose body was burned almost beyond recognition.

Cause of the explosion was not determined immediately.

## Ground, Air Duel in Miami Game

By BEN FUNK

MIAMI, Fla. (AP)—A two-day ground-air duel in prospect for the 70,000 fans expected to see the South College all-star game and first of the big professional football games.

North Coach Sam Hinton, of Purdue, predicted a score of 21-14 without picking a winner. South Coach Andy Gustafson, of Iowa, predicted a score of 21-14 without picking a winner.

The teams battled in a 21-14 final score. Previously, the South had won three games, the North one.

## Porkers Down Washington U. for 2nd Time

By BEN FUNK

LITTLE ROCK, Ark. (AP)—Arkansas Razorbacks knocked off Washington University at St. Louis for the second time this year, 61-51, last night and will move into the South Conference basketball tournament at Houston next week with a four-game winning streak.

The Porkers haven't been beaten since they dropped a one-point decision to Tulsa in their season opener.

A pair of talented sophomores teamed up with two seniors to propel the Razorbacks over the Bears before a disappointing turn-out of 1,500.

The youngsters were Gerald Barnett and Halley Smith, who bucketed 13 and 12 points, respectively. The veterans were Orval Elkins, who pitched in 12, and Floyd Sigley, all-Southwest Conference football and who began.
